

Who are we?

Friends of Nillumbik Inc. (FoN) is a not-for-profit, voluntary, community-based group of residents who care about the environment and the character of Nillumbik's rural and urban areas.

FoN is not aligned with any political party.

Our group emerged in the late 1990s as a response to the increasing levels of over – and inappropriate – development in the Shire.

We remain committed to protecting

Nillumbik from the sort of development that would further fragment the Green Wedge and irrevocably change the character of our Shire.

Currently our group is supported by around 1,000 Nillumbik residents.

What do we do?

- Lobby councillors and council officers on community, environmental and planning issues as raised by our supporters
- Attend council meetings - and ask questions
- Support good council candidates
- Publish a regular electronic bulletin
- Lobby state government for additional funding to support our Green Wedge
- Make public interest submissions on strategic planning matters
- Promote sustainability and energy efficiency principles
- Make submissions to VCAT and planning panels where appropriate
- Advise residents wishing to protect their neighbourhood character

Protecting neighbourhood character

Preserving heritage

Want to get involved? It's free!

Simply fill out the **contact details overleaf**, and we'll be in touch.

If you like, tell us what you think is the single most significant issue that Nillumbik Council should be addressing:
